

Rules & Regulations

Classroom:

- Enter classroom on time for class.
- Do not leave classroom before the end of class. If necessary request permission before leaving or entering in the middle of the class.
- Sit properly in your seat in a healthy way. Do not raise feet toward others.
- Do not bend back. Do not sleep!
- Do not chew gum, eat or drink in class.
- Work quietly, do not disturb others in class.
- Do not talk to other students.
- Raise hand when you want to talk to teacher.
- Classroom conduct and classroom participation are important component of your marks.
- If you need to move within the classroom you should request permission.

Laboratory:

- Observe highest levels of organization when entering and leaving the laboratory facilities.
- Observe all the rules of the classroom.
- In addition do not touch any object, materials and equipment in the laboratory without permission of the science teacher: this is a safety issue.

Lavatories:

- Use the lavatories designated for the high school upstairs.
- The lavatories are not a place for discussion. Exit promptly after you are done.
- Keep the place clean after you used it.
- Exercise self-control. Avoid going to the bathroom while in the middle of a class.
- If you have the need to use the bathroom request the bathroom pass from the teacher. There is one bathroom pass per class. You should place the pass in the designated space in the office, complete your need at the bathroom, return to office and pick up the bathroom pass and place it in the designated place in the classroom.

Lockers:

The lockers are the property of the school not of the student. The lockers are to keep books and other school materials. The student shall not write any thing inside the lockers. The lockers are not a place to store items not related to the school. The school reserves the right to check the lockers. If a student violates the locker rules any of the consequences listed may be executed depending on the violation.
